 Color Inkjet All-In-One Printer

Manufacturer _____

Model _____

NOTE: Die-to-sheet edge registration in die cutting is up to 0.0313" in any direction. Your copier, printer or press has additional die-to-sheet-to-art-registration. Design your label art so that it will not appear off center if the art shifts on the dieline. Borders on labels and tight registration are best avoided on inkjet and laser printed labels.
